## ICONICS Releases OPC ToolWorX Version 3.50

ICONICS has recently released OPC ToolWorX™ Version 3.50. OPC

ToolWorX is ICONICS' rapid OPC development toolkit, which supplies everything needed to quickly design OPC server products, including the infrastructure and software architecture required for designing an OPC server.

OPC ToolWorX Version 3.50 offers the following new features:

- Support for Microsoft Visual Studio 2008 and Visual Studio 2005 development platform
- Support for Windows CE 5.0 and 6.0 compiling in Microsoft Visual Studio 2005 or 2008
- OPC Compliance with the latest OPC Compliance Test Tool (CTT) modules
- Full Unicode build configurations and recently generated OPC projects
- Distribution of OPC Foundation binary and header files
- Several implementation-specific features for faster communications

## Geo Productivity Portals Save Costs for Wind Power Projects

ICONICS has combined several of its products into a Geo Productivity Portal that can provide multiple benefits to industries such as alternative energy and wind power.

Geo Productivity Portals can provide a view of overall productivity, alarm information from wind towers and local meteorological information for complete wind farm management. The portals are built from a combination of ICONICS technologies including Geo-SCADA, productivity analysis and real-time online collaboration and visualization dashboards.
